| What is "due regard" |
| "The regard that is appropriate in all of the circumstances" |
| |
| Includes the importance of the areas of life of the disadvantaged group as compared with countervailing factors that are relevant to |
| the function that the decision maker is performing |
| Risk and extent of any adverse impact must be considered, together with ways of eliminating such risk |
| |
| Mere "consideration" not enough – there must be an analysis of the relevant materials with the statutory considerations in mind. |
